## Example Content Page

Welcome to an example of a Timberlake SiteBuilder CMS content page. This is the main content area on the page. It can display text, links, photos, tables and more!

To the left is the navigation menu used to access other pages in this section. To the right is another content area that can be hidden or visible.

This is the secondary page content area. This area can display display text, links, photos, tables and more!

When empty, the margins automatically change to hide this text area and resize the main page text area to full width.
