MPLA Recording Secretary Report

I distributed notes from the 23 July 2008 conference call meeting to the executive board and webmaster on 28 July, and they were posted on the website soon after.

I received two CDs containing the recording of our meeting within two weeks of the July meeting.

On 5 September I received an acknowledgement of MPLA's most recent addition to the archives, which had been made in late June 2008.

I have researched digital voice recorders, and will secure one in time for the Denver meeting on 10 & 11 October 2008.

Respectfully submitted,
Annie Epperson
