Portal Applications and Support Sites

- Current applications include (new in bold):
 - **calendar.mpla.us** Installed, added accounts, added all current events, built RSS feed processor for MPLA web pages, and created demo MPLA home page alternative (<http://mpla.us/cal.html>).
 - **New Accounts (4 check email for passwords)**
 - dan
 - judy
 - pres
 - vpres
 - meet.mpla.us (Elgg) Up and running several states are active.
 - mpla.us/survey (Limesurvey) Need to prepare for upcoming elections. Need volunteers for testing.
 - Soapbox.mpla.us (WordPress) continued operation with minimal spam attacks
 - Talk.mpla.us(PunBB) continued operation no spam attacks.
 - Photos.mpla.us (minishowcase) image gallery is up and running. Still needs template redesign for improved layout.
 - Formtools form processor is up and running to process all MPLA form submissions. Added Captcha support to prevent spam submissions. Multiple modifications implemented on formtools and html forms to improve the process for Judy.
 - Mpla20.mpla.us Splash page and site introduction for portal applications is up and running.
 - Help.mpla.us provides support information for portal applications.
- Future applications
 - Explore possible integration of RSS feeds from MPLA pages. Would require exploring use of CMS application
- Site Maintenance
 - Weekly back-ups created every Friday and stored on local hard drive.
 - What should I do with large number of backs?
 - Send to MPLA Archives on DVD
 - Security vs Spam- Had a series of attacks on the meet.mpla.us site. Attacks solved by adding registration-monitoring module to Elgg. Deleted spam accounts. Added email notification module for suspicious activity.
