

WM 2018-08-03 Webmaster Report

Upgraded Modx to ver. 2.6.5

Had to manually upgrade modx via FTP and Install Process

There was a security risk for [earlier versions](#)

This was a very nerve-wracking experience. I was on a vacation for 2 weeks without a computer only my iPhone. I was hoping the entire trip that MPLA website would not be hacked. I was able to increase the frequency of backup during the time.

Continue to post job listings

We get quite a few of these each week.
