

MPLA stuff:

Working on contacting lapsed members to inquire about renewing MPLA

I had lunch with the NLA vice president to talk about why membership in MPLA was so important. I plan to offer a presentation at the NLA conference on MPLA membership and activities.

Continuing to work with the NLA board to create a joint membership category for state and regional membership.

Nebraska stuff:

We just signed a memo of Understanding for a joint conference with Iowa Library Association in 2019. This will be the first joint conference with Iowa.

Rebecca McCorkindale at the Gretna Library has designed graphics for the Libraries are for Everyone campaign specific to Nebraska. Her graphics AND translations into a multitude of languages are all available with a creative commons license. The graphics and the translations can be found here: <https://hafuboti.com/2017/02/02/libraries-are-for-everyone/>

If there is a language your library serves that isn't represented yet, she is very interested in getting those created. Please reach out to her if you need a translation added to her list. She could also be convinced to make logos like this for other states. Nebraska has them in seven colors. <http://www.nebraskalibraries.org/page/NLAFE>
