WLA News

- WLA is in the midst of conference planning work. The keynote speaker will be Sarah Vowell and Jennifer Nielsen will be the featured author. The conference is scheduled for October 4-6 in Casper, Wyoming. Our legislative committee has been keeping an eye on the interim legislative session topics, and thankfully none of them touched libraries. We anticipate a challenging session next January.
- The state library has recently created a new website. A feature that may interest MPLA members is the job board, which can be viewed here:
